Letter from C.D'A. Crofton Esquire, I.C.S., Collector of Bellary, Ref.No.A-6-6236/27 dated the 11th April 1928.

:-:

Refce.- My No.6236/27 B.2, dated 25th February 1928.

-:-

The Government have sanctioned the retention of the following temporary establishment in Bellary taluk in connection with the loans work:-

1. Special Loans Tahsildar.
2. 4 Revenue Inspectors.
3. 5 Clerks, and
4. 6 peons.

The above establishment was at first sanctioned for 3 months in G.O.No.1940/27 dated the 1st October 1927 and it was further extended for two months. The period expires on the forenoon of 15th April 1928.

2. The particulars of the work taken up by the special staff and the balance of work to be attended to are given in the statement enclosed. Another statement showing all other items of work done by the special staff is also enclosed. It will be seen therefrom that there are still 876 uninspected incomplete works, 927 loans Orders to be copied and sent to the Registration Department along with the connected advices. The Special Loans Deputy Collector who was in charge of the above staff till 31st March 1928 proposes that 2 Revenue Inspectors and 2 clerks may be allowed to continue for three and two months respectively to complete the work.

3. Though the collection of the loan instalments due in fasli 1337 has been ordered to be postponed by the Board in its proceedings No.F.2956/28.1, dated the 23rd March 1928 there is yet a large number of items of loan arrears relating to previous faslis still outstanding. According to the latest demand prepared by the Treasury Deputy Collector there are as many as 8,100 items where collection has to be made. In no less than 356 cases summary recovery has been ordered and the amount to be so recovered aggregates nearly a lakh. To attend to these items of work the Revenue Divisional Officer Bellary suggests

the entertainment of a special staff consisting of three Revenue Inspectors, 2 clerks, and three peons for 6 months.

4. Besides the above two classes of work awaiting immediate attention in Bellary taluk there are numerous items of a miscellaneous nature not susceptible of being gauged in figures. I would invite the attention of the Board to the actual state of affairs, in this branch of work described by the Special Deputy Collector, Bellary, who gives a full account of the state of chaos in which the loans - records in the Bellary taluk office are now. (Please see extracts of paragraphs 2 to 5 of his report Ref.C.No.227/ 30-3-1928. The Special Deputy Collector was also able to bring to my notice irregularities of a different nature in his inspection notes of the loan records relating to the - period prior to fasli 1336. He relates therein that several loan records of fasli 1333, 1334, 1335 are missing and that the remaining records are heaped up in confusion and that the registers then maintained have to be brought upto date. It is clear that in previous years the work of disbursement was rushed through in feverish haste with the sole idea of spending as much money as possible without the least regard for thoroughness, efficiency, and equity in the matter of - distributing the loans. There was no supervision over the work of the Revenue Inspectors whose inspections and enquir were only nominal. The registers were incomplete and in - confusion and the office work was in heavy arrears when the present special staff commenced the work. But for the zealous and thorough work executed by the Special Deputy Collector I would not have had such a thorough insight into the existing state of the records of the previous faslis. These were brought to my notice only at the end of March and I could not therefore entrust the work to the special staff who were solely employed in the inspection of works and - attending to the connected correspondence. The special staff

has

has no doubt done a great deal of useful work, but has practically not been able to touch the chaos in the Taluk Office dating from the first avalanche of loans disbursements from Fasli 1331 onwards. I am convinced that a work of such a magnitude cannot be undertaken by the existing overworked taluk staff without serious detriment to their ordinary duties at this part of Jamabandi and collection seasons. It is highly desirable therefore that the taluk office should have a chance of starting afresh, fair and square or chaos will result again. My proposals therefore amount to this:-

(1) Continuance of 2 Revenue Inspectors - 2 clerks and 2 peons for the purpose of completing the work started by the special staff and for attending to collection work for a period of 4 months, or

(2) The continuance for 2 months of 3 Revenue Inspectors, 5 clerks, 5 peons and 1 Tahsildar who will be in charge of all loan work, both collection and the other items of work detailed above. The latter proposal seems to me undoubtedly the most convenient and efficient way by which the records can be thoroughly over-hauled and placed on a normal and satisfactory basis. It is quite possible that the period of two months suggested by me may be found to be too short, but if necessity arises for extending this period, proposals will be submitted later on. As the period expires by the 15th, I am retaining the entire staff consisting of 1 Tahsildar, 3 Revenue Inspectors 5 clerks and 5 peons in anticipation of Board's approval. If the Board does not agree orders may be sent by wire so that I may dispense with the services of these men.
